

Anger var i  
körningen vi  
befinner oss.

Visar värdet på de  
variabler som  
finns i aktuellt  
programblock

The screenshot shows the Microsoft Developer Studio interface with the following components:

- Menu Bar:** File, Edit, View, Insert, Project, Debug, Tools, Window, Help.
- Toolbar:** Standard development icons and a dropdown menu set to "NMIC".
- Class View:** Shows a hierarchy with "(Global)", "(All global members)", and "(No members - Create New Class...)".
- Code Editor:** Contains Fortran code for "PROGRAM SAMPLECODE".

```
PROGRAM SAMPLECODE
  INTEGER, PARAMETER :: AP=SELECTED_REAL_KIND(15,300)
  REAL(KIND=AP) :: X,Y
  REAL(KIND=AP) :: K(20,20)

  X = 6.0_AP
  Y = 0.25_AP

  WRITE(*,*) X
  WRITE(*,*) Y
  WRITE(*,*) AP
```
- Debug Window:** A floating window with a toolbar for debugging actions like Step Over, Step Into, etc.
- Context Window:** Displays the current context as "SAMPLECODE()". It contains a table of variables:

| Name         | Value                |
|--------------|----------------------|
| K            | {...}                |
| Y            | 0.0000000000000000E+ |
| X            | 0.0000000000000000E+ |
| __RTP_HYPROC | 0                    |
- Watch Window:** A table for monitoring specific variables, currently empty with headers "Name" and "Value".
- Status Bar:** Shows "Ready" and navigation buttons for "Auto", "Locals", and "This".
